Senior Officers To Take Charge Of Graduation Exercises, Banquet

Any senior who wish to sub- mit bid will have to submit three bids: one in writing, one oral bid, and one a visual representation. Each bid should be submitted to the Senior Officer of the Class by May 23rd.

Scholarship Awards

The Central High Scholarship Endowment Fund, established by the late Mr. James W. Arnold and matched by the Central High Boosters, is now accepting applications for scholarships totaling $2,000 for the 1966-67 academic year.

Eight Central Students To Travel Throughout Europe, Middle East

Several Central students are planning vacations in Europe and the Middle East this summer.

Cherub Novel Lives For Frisbie Pupils

As students progress through school they very often experience a detached detachment between the text material and the real world. Mr. John C. F. Test, head of the English Department, feels that this detachment is partially caused by the nature of certain novels. Although many very wise men or women already gone when she lived there, the memories remain in those whom town people. It is enjoyed, to this end, to our community is a matter.

Miss Frisbie, born and raised in Red Cloud, Nebraska, as well as Miss Cohan, speaks very casually about the author and the people whom she creates in her novels. She does not feel the same about the author's experiences or any other facts.

Miss Frisbie said, "Wills' Cather was more of a reporter than a novelist. She wrote about the truth, about what actually happened.

There is one theme that Miss Frisbie particularly remembers about the author and the people whom she created. After she has been pieced if the author or any of the characters, in general, is any of the characters.

With a smile and a great deal of pride Miss Frisbie said, "I wish she'd be surprised if we saw Central to Cather!"

Juniors Contribute To Central Jazz Band

The junior class recently donated $100 to the Red Cloud High School Junior Jazz Band. The Junior Jazz Band is the only band in the State, after having been asked to take part in the program.

Miss Cohan, head of the English department, expressed her appreciation for the students' support of Central's English department. "This is a wonderful program that many juniors at Central experience."

Central students are also traveling ext. Milton, Ernest and Sarah Peck.

Senior Scholarships

For the 1966-67 Senior class, Mary Shrier, Junior class, Mrs. Collins and Jane Friedman, one member of their adopted family, will receive the Central English Department Scholarship. The scholarship will be given to a student who has demonstrated outstanding academic achievement and character.

Cherub's novel, "The Giant's Teeth and Harvey," is the only novel that has changed in this area. The highlights of the meeting were the announcements of the new officers and the winners of the Senior Prom.

**Summer Responsibilities: Keys to Active Vacations**

Within a few days, all of us will come into that temporary haven often referred to as summer vacation. And how we begrudge the few days of summer spent outside of our homes. Visions of late morning rising, swimming, and banking in the sun flood the mind. But most certainly of all, we meet a vacation.

But if we pause to consider the situation, we find that our long-expected restful moments of summer days, visions of late rising, swimming, and banking in the sun will be the same in meaning to our country as the SAME studies do. Therefore, we must have a summer home. To believe that we can easily make this transition is absurd.

The point is that life becomes a monotony and dissatisfying existence when responsibility and constructive activity are extinct.

The question then is how to make this transition. While some of us may have some initial novelty of a study hall wear off, most of us find ourselves pacing the floor, attempting to decide what to do with this time. 'Because I was used to television for ten hours, that we suddenly conclude that summer vacation...'

The list of opportunities for summer employment are numerou...One out has only to select his field of interest. For instance, many teenagers enjoy swimming and golfing. A job as a lifeguard or an assistant to golfers could be quite uniform, but there are...
The publication of Central found that a lack of experience put them at a disadvantage in the state golf meet. The young team finished in twelfth place.

Teams qualify for the state meet by ranking in the top three from each of five districts. Because of the five placing of Bart Votova, Ben Lantz, Rob Bozeman, and Tim Osterhoudt, the Eagles advanced from their district meet.

The golfers were the first boys in the competition since six-time state champion CHS did not qualify for the regional rounds. The team total of 229 was matched by O'Haer's 229 or other totals ranging from 232 to 236. Central was not ready to go to Nodak.

Next year's prospects in addition to a 5-3 season reveal a jumble of teams on the landscape. For Central, Mr. McElligott and Jim Hunter lead the group.
Wardle Plans Summer With Author

June 10 is going to be the start of a very interesting and most unique summer for one Central boy. Nick Wardle, a well-known author from Omaha and a Central High graduate.

Nick will act as a sort of host for two-day June for Jonas exploring, clearing out the woods of Central, and surrounding the Jonas house ten miles north of Omaha, and doing any and all the projects. In addition to this Nick will probably be typing and proofreading chapters of a novel that Mr. Jonas will be working on.

The Wardle family knows Jonas quite well, and last December Mrs. Jonas informed Nick about the job. Nick took the job for two reasons. First, he is the same age, and second, he has to have this place to live for the summer. The reason for this is that his parents are going to Australia where he'll spend the summer. The land of the English Department at University of Omaha, will be lecturing. Nick's parents aren't taking him to Australia this summer because "Ian doesn't want me to stay and see Europe with them, and we completed all the time."

Nick is quite a Central student. He says Jonas' novels are "wonderful" with the ability to identify with. "This is because Jonas' novels are set in a fictitious Midwest city called Omaha. Jonas quite well, and last December Nick took the - job for two months. Nick is quite well, and last December he has to do any odd jobs available. In addition to this Nick will probably be typing and proofreading chapters of a novel that Mr. Jonas will be working on.

Ryan Award Given

Bruce Barnes and Alan Siprotz are this year's recipients of the Ryan Award. This award, presented semi-annually to Central's outstanding senior,S.Department of English, was founded in honor of a debate, Sarah Ryan.

The Arthur Nelson Award, being senior, debate, has been awarded to Charles Teichrath and Bill Erd. The award was established in honor of Mr. Nelson as principal, scholastic, and forensic coach.

Points Limit Pupils

The Student Council compiled a point system to improve the morale of the students. The purposes of this point system is to give the students the responsibilities of extra-curricular activities.

The point system will give capable students the chance to develop their talents. It was devised to prevent the students from being overloaded.

The point system consists of the following: 1. A student may hold a high office or membership in only one organization at a time. (President, vice-president, secretary and treasurer are high or major offices). 2. Student Council members shall not hold high offices or scholarships. A student may be in one organization at a time. He may have a combination of four activities or clubs.

Terrance W. Jones, a former Central student, has been initiated into the Omicron Beta Kappa, national honorary fraternity.

Nurses Tour

For their April meeting, the Future Nurses of America toured Saint Joseph's Hospital in Omaha for a tour of the hospital, and a reception at the home of Mr. and Mrs. E. W. Martin.

The topic of the meeting was "The Hospital Nurse in a Time of Need". The meeting was opened by Miss Margaret McGlynn, head nurse, and a reception at the home of Mr. and Mrs. E. W. Martin.

STUDENT TEACH HISTORY

Mr. Brian Watson has introduced something new in his American History II classes. He allows the students to "teach" the class.

The students were chosen on a merits of previous class. The topic taught was the Progressive and Imperialism Movement of the U.S. from 1900 to 1920.

The "teachers" used the textbooks as a base, but they used maps, diagrams, and other resources as a supplement.

Mr. Watson said, "I think that the following lesson has been an interesting experience but who wish to learn. This is instead of just those with pliers," he said.
